TEN CENTS A WEEK

3 KILLED, 50 INJURED

An Awful Elec'r.c Storm Sweeps
Camp of Soldiers.

FIELD HOSPITAL IS CROWDED

Unprecedented Storm of Lightning
and Wind Strikes the Encampment
of the Pennsylvania National Guard
With Awful Results.

Gettysburg, Pa., July 25.—In an all-night search throughout Camp Hays, where the 10,000 men of the national guard of Pennsylvania have been in camp for a week and which was on Thursday night visited by a terrific electrical and windstorm, shows that three soldiers were struck dead by lightning and that nearly a half hundred other persons were injured.

Those killed were:
Corporal O. Milton Garver, company C, Tenth regiment, Uniontown.
James A. Barbe, company K, Tenth regiment, Waynesburg.
Private Clyde Morrison, company D, Sixteenth regiment.

The dead were members of the second brigade.
The cots of the hospital tents are filled with the injured, some of whom are women and children who had been visiting the camp.

Governor's Tent Blown Down.

The tent which Governor Sturatt had been occupying during the week's encampment was blown down by the terrific wind and the governor and his guests were buried under the canvas. With the governor were Charles B. Mann, of the state railroad commission; Colonel Gould, of the first regiment, Philadelphia, and Captain P. H. Wheeler, formerly of the first regiment. In the tent adjoining that of the governor, were the sisters of Governor Stuart, Miss Cora Stuart, of Harrisburg, and Mrs. Lechler, of Philadelphia, and Mrs. Charles B. Mann, of Philadelphia.

It was with the greatest difficulty that the tent they occupied was kept from collapsing. The tall iron flag-staff in front of the tents of Governor Stuart and General Wiley was struck by lightning, stunning several members of the governor's staff.

Barbe was sitting in his tent with another soldier when he was enveloped in a blue flame following a terrific crash and he fell dead. The other soldier, Paul Neels, was only stunned by the bolt.

In the case of those killed, the new army puttees furnished just before the men went into camp, were torn from their limbs, the steel rib being exposed. Some of the officers believe the steel attracted the lightning.

Storm Came Suddenly.

The storm broke suddenly. The wind blew with almost cyclonic force, the rain came down in torrents and the lightning was the most severe here in years. Although the hour was late, the camp still contained many visitors.

The second brigade is situated in the lowest field of the camp ground and every company street was soon a running stream. Everywhere tents were collapsing and lightning bolts were striking in many places. For a time utter confusion reigned, but as the storm passed off, the commanders of the several regiments in the second brigade brought about order and began a systematic search for injured guardmen. As rapidly as they were found they were removed to the hospital tent and given medical attention.

The trolley line between the camp ground and the town was put out of service by the storm, and many of the visitors were compelled to spend the night in the Y. M. C. A. tent. Among them were women and children, who almost went into hysterics during the height of the furious storm.

300 Tents Were Blown Down.
More than 300 tents were blown down. Of the 90 tents of Battery G but eight remained standing.

Garver was with friends in the guard tent when he was killed. The bolt threw his companions in a heap, severely shocking all of them. Then it shot along the ground thirty feet to the tent of Morrison, wrenching the

tent and stunning Morrison, Christler and their wives. It tore Christler's coat into shreds and twisted his horn into a shapeless mass. An instant later fifty yards away, another bolt struck Barbe, killing him instantly. Private Morrison was standing at the hospital tent when he was struck. There were seven or eight patients in it, sufferers from the heat. During a storm Tuesday night Lieutenant Paul K. Morley, of the first regiment, was killed by lightning while on regimental duty.

A GAMBLER'S VENDETTA.

Mysterious Persons After this Sporting Element in Chicago.

Chicago, Ill., July 25.—Bomb No. 18 in the gamblers' vendetta series was exploded Thursday night in the rear of James J. Corbett's saloon, 286 State street.

The bomb was placed under the saloon in the rear of the basement which is used as a storeroom. Planks two inches thick were torn from the walls and several hundred dollars' worth of bottled beer goods that had been stored in the basement was broken.

The explosion caused excitement among the guests of the Strauss hotel above the saloon. The bomb had been placed on top of a jug and when it exploded, pieces of the jug were blown into the walls of the building.

Two rooms of the hotel are said to have been used for a poker game, and the bomb evidently was directed toward the keepers of the gambling house as Corbett is not interested in the hotel.

The explosion was the third similar attempt that had been made against the gamblers in a month.

The police never have been able to find the persons responsible for the outrages.

CONSUL CORRECTS REPORT.

No Likelihood of War Between Honduras and Nicaragua.

Mobile, Ala., July 25.—According to advices received here from Spanish Honduras by Hon. Ernesto Fletes, consul from that country to this port, there is now no insurrection in his country nor is there any likelihood of there being any war between Honduras and Nicaragua.

Consul Fletes declares that all the talk about war between the two countries is a conjecture of some one's brain and that it has no reality in fact. Speaking of the matter, he exhibited a dispatch from the minister of the interior of Honduras, Mr. E. C. Fialla, which was dated July 14. He explained that this dispatch had come via Porto Cortes and from thence by steamship to this port, hence its statement that there was a revolution in Gracias and Choluteca, which towns were occupied by the insurgents.

FREAK OF ALLEGED MANIAC.

Startled Chicago Police by Walking on Telephone Wires.

Chicago, July 25.—A maniac who performed weird gymnastic feats on a telephone pole and walked the wires between poles with the casual air of a man on the street, kept a squad of policemen busy for an hour Friday. A company of firemen finally induced the crazed performer to mount a ladder which, once he was on it, was quickly lowered.

The prisoner proved to be Constantine Bostella, an automobile mechanic, according to his friends, has been a student of aerial navigation, which is thought to account for his having chosen the telephone wires for his performance.

Aeroplane Recovering from Injuries.
Lemans, France, July 25.—The report that the condition of Wilbur Wright, the American aeroplaneist, who was recently scalded, was so serious as to necessitate an operation, is unfounded. Mr. Wright is making good progress towards recovery and is able to work continuously on the plans of his aeroplane.

Craft's Slayer Suicides.

Louisville, Ky., July 25.—The body of Philip B. Hane, who shot and killed Arthur W. Craft and badly wounded Mrs. Craft, has been found lying near the highway nearly a mile from St. Matthews, a suburb. Hane had shot himself through the head.

QUEBEC CELEBRATES

Three Hundredth Anniversary of
City's Founding.

HISTORIC PAST REPRODUCED

Magnificent Spectacle Witnessed in the
Ancient City, at which the Prince of
Wales Was the Central Figure—Vice
President Fairbanks Present.

Quebec, July 25.—The prince of Wales was the central figure Thursday in the magnificent spectacle reproducing Quebec's historic past and ushering in the three hundredth anniversary of the founding of the city by Champlain.

Aside from the spectacular features of the event it was the occasion for a notable exchange of addresses between Vice President Fairbanks and the prince of Wales, in which each spoke of the existing relations between the United States and Great Britain, and the prince delivered a message of good will to the American government.

An enormous crowd filled the Place

CHAMPLAIN MONUMENT.

des Armes, fronting the Champlain monument, where the exercises were held. Here the prince received the addresses of the American and French representatives, the mayor of Quebec, and finally Champlain himself, reproduced as in the days of old, coming from the mimic reproduction of his original ship, the Don de Dieu, with some 5,000 followers, representing every phase of old France in Canada. Thursday night the city was ablaze with lights. From the citadel the prince looked across the St. Lawrence at a gigantic display of fireworks on the heights of Louis, showing in fiery outlines the portraits of King Edward, the Falls of Montmorency, and the battle of Wolfe and Montcalm.

German Applaud American Singers.
Stuttgart, July 25.—The Brooklyn African Choral society gave a concert Thursday night in Liebenzell, the largest concert hall in Germany, every seat being filled. Each and every number on the program was heartily applauded. Attorney List, of Rottlingen, in behalf of the German Naengerbund, of which he is the president, announced that the Brooklyn African Choral society had become its first American member. The German Naengerbund is composed of all the singing societies of the empire. Herr List handed Dr. Fischer, president of the society, the diploma of membership.

Edmondson Goes to Washington.
Washington, July 25.—Robert Edmondson, of the Galveston (Texas) baseball club, and formerly with the Washington Club, has been signed by Manager Cantillon and will join the club at St. Louis.

WATSON OPENS CAMPAIGN.

Large Audience Hears Populist Candidate in Macon.

Macon, Ga., July 25.—Hon. Thomas E. Watson, populist nominee for president, opened his campaign before a large audience in the Grand opera house Thursday night. He spoke more than two hours, his attention being given largely to the alleged faults and needs of the democratic party in the south, and to an attack on William J. Bryan, the democratic nominee for president.

Mr. Watson asked for Georgia's electoral vote, and said that, if necessary, he would give them to Bryan to defeat Taft.

The house was well filled, the larger number being the voters of the county. Many people came from a distance. Mr. Watson was received at the depot Thursday morning by a large party of friends, and at the Brown House during the day he received numbers of prominent callers. The speaker was introduced by Hon. W. A. Huff in a short, but well chosen address.

In referring to the democratic platform adopted at Denver, Mr. Watson said:

"This Denver platform is not a democratic platform, unless the mere saying of W. J. Bryan constitutes democracy. Judged by the platform of the party from its very foundation, down to the days of Buchanan, it is an insult to historic democracy to call Bryan's patchwork platform a democratic document. What right has he to demand the support of those citizens, who are democratic in principle, upon such a platform as this?"

"The platform upon which I stand represents the democracy of Jefferson and Jackson, applied to modern conditions. Put into law, it would give back to our country the prosperity it enjoyed in the decade preceding the civil war. If the south will follow me in this campaign, revolting against the odious conditions under which she is expected to serve Mr. Bryan, she will at once resume her old place in the sisterhood of sections. She has no importance now, politically, because she has no independence. Being a democratic asset, which can be counted on with certainty, nobody regards her. Let the south become politically uncertain, and she will again become politically great."

A NERVY ROBBER.

Lone Bandit Tries To Hold Up a Train but is Balked.

Chicago, July 25.—A dispatch to the Tribune from Appleton, Wis., says:

A nerry robber tried to hold up the Ashland and St. Paul northbound train on the Chicago and Northwestern railroad Thursday near Appleton Junction, a mile and a half north of here. The train had just passed the junction when a masked man climbed over the tender into the cab of the engine from the platform of the blind baggage, where he had been hiding.

Revolver in hand, he commanded the engineer, Louis Wendell, to stop his train, uncouple his engine, and run up the track a short distance.

Engineer Wendell, covered as he was by the man's revolver, was about to comply when Gustave Pahl, his fireman, hit the highwayman a heavy blow, knocking the revolver from his hand. Pahl was swinging for another blow when the man jumped from the doorway while the train was running twenty miles an hour.

It is the theory of the trainmen here that there was a large shipment of gold on the train from Chicago to St. Paul and that it was this treasure the man was after. A posse is searching for the highwayman.

Press Convention Adjourns.

Birmingham, Ala., July 25.—The annual convention of the Alabama Press association came to an end on Thursday, officers being elected as follows: President, John C. Lawrence, of Union Springs; vice president, C. G. Fennell, Guntersville; secretary, Jacob Pepperman, Montgomery; treasurer, Frank Crickton, of Clanton. Citizens of Bessemer chartered a special train to the Atlanta, Birmingham and Atlantic railroad for a picnic, starting Friday morning from Bessemer, Ala., and to the sea.

DISASTER IN TUNNEL

Twenty-Five Workmen Drowned
by Subterranean River.

CAUGHT LIKE RATS IN A TRAP

While at Work in the Latchberg Tunnel, Water from Underground Water-course Burst Forth and Swept Them to Death.

Berne, Switzerland, July 25.—There was a frightful accident early Friday morning in the Latchberg tunnel, in the Bernese Alps, which resulted in the death of twenty-five workmen. The men were drilling inside the tunnel.

Without warning their tools pierced the wall that separated them from a subterranean river or lake, the existence of which was not known.

Then the wall gave way with a crash and a torrent of water and mud rushed into the tunnel and killed it. All of the workmen were drowned. They were Italians.

ALABAMA WILL GET \$140,000.

This Sum Will Come from Assessment of Intangible Franchises.

Montgomery, Ala., July 25.—The new law providing for assessment of intangible franchises will yield the state of Alabama the magnificent sum of \$140,000. In exact figures last year the tax was \$159,338, and it will be fully as much this year. The same amount that goes to the state will be received by the counties, as the counties, as a rule, assess about the same as the state. The total valuation last year was \$21,881,893, and it will be about the same this year.

This revenue is in addition to the tangible assessments, and until the 1907 session of the legislature was not collected at all. It will, like other sources of revenue, grow bigger as it grows older, until in a few years it will yield way up toward a million dollars. Taking the counties and state together, its return on last year's assessment will be \$276,656.

TO RE-TRY OIL CASE.

Combine Cannot Escape Raps of the Big Stick.

Oyster Bay, N. Y., July 25.—President Roosevelt has announced in unmistakable terms the determination of the administration to proceed with the prosecution of the Standard Oil case despite the decision adverse to the government, handed down by the United States circuit court of appeals Wednesday.

This decision, the president thinks, in no way affects the merits of the case, and he makes known his decision to cause the action to be brought again before the courts, in such shape, if possible, as to prevent technicalities interfering with a decision based upon the actual issues involved.

It is said the president has directed the attorney general to immediately take steps for the retrial of the case.

Man Stripped Into Jail.

Mobile, Ala., July 25.—A Gulfport, Miss., special says that Will Busby, a negro ice man, who, when the sheriff's officers were trailing him with dogs to arrest him for deadly assault on another black with a shotgun, ran straight into the doors of the city jail for refuge, was bound over in the sum of \$100 and a mittimus issued for his transfer into the county jail. Busby was enraged by the appointment of another negro to drive his wagon and sought the life of his successor in revenge.

Body Found in River.

Hawkinsville, Ga., July 25.—The body of E. C. Cox, commonly known as "Lima Cox," was found in the river lodged against a log just below the cotton factory here. He disappeared from home Sunday, and no trace of him could be found until discovered in the river. The coroner held an inquest, but no evidence showed the cause of his death, except a scar over the eye, and this was very slight. He was married, but had no children.

THE LABOR VOTE A PROMINENT FACTOR

In the Great Contest Now on Between
Bryan and Taft.

REPUBLICAN LEADERS ALARMED

The Great Trusts Doing All in Their
Power to Restore Confidence of
the Workingmen in the Protective
Tariff Policy.

(Special Correspondence.)

Washington, D. C., July 25.—The result of the National campaign will largely be determined by the votes of the laboring men. In former campaigns, after deducting those who voted the Socialist ticket, what is known as the labor vote has been about equally divided between the two parties. In the States where the highly tariff-protected industries are ensconced, such as Pennsylvania, New Jersey and Ohio, the workmen employed in the iron and steel and glass and textile and pottery industries have mostly voted the Republican ticket. These workmen have been led to believe that their employment depended upon the Republican policy of tariff protection and only through that policy, as the Republican National platform declares, can be maintained "the high standard of living of the wage earners of this country, who are the most direct beneficiaries of the protective system." This year, however, it seems probable that the workingmen of even the highly-protected industries are demanding something more than tariff protection and "Government by Injunction" is the paramount issue with them.

The highly-protected steel trust managers evidently feel that something must be done to hold the labor vote for the Republican party and H. C. Frick, who broke the Homestead strike in 1892, and who is now one of the managers of the steel trust, has set about to do it. The plan is laid down in a dispatch dated July 20, from Pittsburgh to The New York Sun. It informs the public that:

"The H. C. Frick Coke Company today placed orders with many employment agencies in Pittsburgh for men to work at the coke ovens in the Connellsville field. One stipulation is that all must be Americans, or at least must have been residents of the United States for a certain number of years.

"One Pittsburgh employer yesterday let the contract for 100 houses for his miners, each house to have a bathroom."

The dispatch you will observe says nothing about the wages to be paid, but undoubtedly the pay to these Americans will be the same as it was to the foreigners, heretofore employed, but the Americans are to have

bath-rooms if they can pay the extra rent charged for that luxury.

The Bulletin of the Bureau of Labor just published by the Department of Commerce and Labor, contains the latest official report on the wages paid to coke workers in Pennsylvania for 1906. As that was in the height of the late trust boom, wages were then at the highest point. So the Americans are not likely to be now paid higher wages. The report says:

"There were 12,330 coke workers, to whom were paid wages amounting to an average yearly wage of \$562.60. That was equal to \$46 a month or \$1.70 a day of 26 working days in a month." At the high cost of living, in consequence of the tariff protecting the trusts, an American workman would not revel in luxury on such wages, although bath-rooms were thrown in free, though the steel trust, which controls the Frick coke industry, did make such enormous profits that it paid good dividends on hundreds of millions of watered stock. Still if it is true that over twelve thousand coke workers, all Americans, are to be put to work at \$1.70 per day, it is a great improvement if not actual prosperity for these men, who have been practically idle for the past six months.

But somehow I feel it will be well to await further advice before believing this good news. The bathroom story casts a doubt over my mind. It is too altruistic to be credited to the steel trust and Pittsburgh.

The story has the earmarks of the Sunshine Club which is working overtime to prove that the late Republican deluge was merely a shower and that if we will all put faith in what the Sunshine Club tells us and by taking a kind of Republican faith cure the late panic and the still present business depression will disappear and prosperity reappear.

The fact is the trust magnates and the railroad managers have all joined the Sunshine Clubs in their respective centers and are liberally contributing towards the dissemination of Sunshine news. They are sending it to all the newspapers, not forgetting the labor papers, and the bathroom story is evidently intended for the especial consumption of the workingmen to show them the actual prosperity that awaits all "Americans" if they vote the Republican ticket and do not listen to the wicked Gompers, who would lead them off into the barren field of Democracy. The Democratic managers, however, view the matter with considerable complacency, for it shows that the Republicans have discovered it is necessary to look after the labor vote even in such a State as Pennsylvania with its enormous Republican majority, and they draw the conclusion that in many other States the labor vote will be almost solid for the Democratic ticket.

There is, however, a doubt in the Democratic optimism, for it is feared that many labor votes may go after the false God of Hearstism and that

such votes will count most in the States where the Democrats need them more especially.

The "American" workingman has had his eyes opened. He now sees that protectionism and other Republican policies are not panacea proof. He is still suffering from the high prices of all he buys that his lords and masters the trusts and corporations can extort by virtue of the monopoly the tariff policy of the Republican party gives them. He dreads the certain reduction of wages "after election," if the trusts and corporations achieve another lease of power through Republican success.

The greatest fear of the American workingman is that if the Republicans are successful he can no longer appeal to force of arms—the strike, the boycott—and without these he is helpless to protect himself, and therefore the modification of the right of a court of equity to issue injunctions is the paramount issue of the campaign.

How can the "American" workingman, therefore, resist the opportunity to defeat his enemies and restore his lost opportunities? From present appearances at least two-thirds of organized labor will vote the Democratic ticket.

The great problem of the Democratic leaders will be to prevent the coercion of the workingmen who are not "Americans," yet who are such a large percentage of the voters in every doubtful State. That requires a compact organization and campaign funds to make such possible.

Mr. Bryan has appealed to every Democratic newspaper to open a subscription list for campaign funds, and if the editors will lay before their readers the necessity of giving what they can afford there is no doubt that all legitimate expenses will be met. The legitimate expenses of a Presidential campaign are enormous—the Republican managers estimate it at \$3,000,000, but they are naturally extravagant. If half that sum is donated by Democratic patriots, the issue will not be in doubt from lack of campaign funds.

ROBERT MILLER.

Over Thirty-Five Years.

In 1872 there was a great deal of diarrhoea, dysentery and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained that record. From small beginning its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by all druggists.

Mothers' Meeting Friday Night.

Notwithstanding the inclemency of the weather, quite a number attended the Mothers' Meeting at the palatial home of Prof. T. F. McBeath Friday evening, when an interesting program was rendered. The fathers, too, were also invited to participate, and a good many of them responded by their presence on this occasion. Besides the excellent program rendered of music and recitations, an important feature was the subject on "How to Train Children."

Help for Those Who Have Stomach Trouble.

After doctoring for about twelve years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctors' fees, I purchased my wife one box of Chamberlain's Stomach and Liver Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before.—Samuel Boyer, Folsom, Iowa. This medicine is for sale by all druggists. Samples free.

WILL BE BIG THING FOR GAINESVILLE

New Division of Land Office Will Employ
About Twelve Clerks.

\$25,000 A YEAR TO BE PAID OUT

Salaries Will Materially Help the City
in Financial Way—Some of the
Clerks Already Installed and More
to Come Soon.

Gainesville is fortunate in having
been selected as the headquarters for
the new Field Division of the United
States land office, with Capt. A. Paul
in charge.

That it will prove a good thing for
the city from a financial standpoint
one has only to see what the salaries
of the clerks will amount to in the
course of a year.

The new division will employ be-
tween ten and twelve clerks to per-
form the work that will be required
of them, and the pay roll will reach
into the neighborhood of some \$25,000,
which will be paid out in this city.
Besides this, it will cause many peo-
ple to come to the city who would
otherwise never visit here. All the
furniture for the new offices was pur-
chased here of the local dealers and
is of a high quality, being the latest
improved and conveniently arranged.
It will be added to from time to time
as the new clerks come in and oc-
casional demands it.

There are five of the special agents
here under Capt. Paul, the latest one
to arrive being F. E. Hunt, with more
expected by next month.

The new division comprises three
States, Alabama, Mississippi and Flor-
ida, and it will take the large force
named to keep up with the lands which
are fast being taken up through the
homestead and timber and stone
purchase laws.

Entertainment at Armory Friday
Evening Proved a Success.

Despite the adverse condition of
the weather, the entertainment given
under the auspices of the Baptist
Young People's Union of the First

Friday evening proved quite a suc-
cess both socially and financially.

In accordance with announcement,
the "Seven Old Maids from Lavender
Town" were present to assist the
young people with the function. Their
costumes were grotesque in the ex-
treme, and created much merriment
among those present.

Seven cents was the admission
charged, this also being the price of
the cream, cake, etc.

During the evening an interesting
musical program was rendered, in-
cluding several recitations which
were much enjoyed.

Died in His 107th Year.

Obit Robinson, possibly the oldest
colored person in the county, died at
his home near Jonesville Friday
morning, and the remains were laid to
rest at Pleasant Plains cemetery. He
was born May 14, 1801, was a servant
in the Civil War, remembered all the
times when the stars fell and often
referred to the incident. He was an
industrious colored farmer and had
many friends among both races.

Again in Hands of Law.

Chas. Player was arrested again
yesterday on a charge of selling
"boozie," this time his case coming
up before Judge H. G. Mason. He
waived examination and bond was
placed at \$250 for his appearance at
the next term of court. Up to last
night his friends had failed to raise
the bond, and he is confined in the
county jail.

Ticket Agent Goodwin will have a
special train leaving here at 12
o'clock noon, arriving in Palatka about
1:30 p. m., making the trip in about
one and a half hours, and returning
will leave Palatka at 7 o'clock, for
the low rate of one dollar for the
round trip.

The home team will be greatly
strengthened for this contest by hav-
ing her original old players in their
places, and they expect to carry off
the honors on this occasion. They
have arranged to take a large crowd
with them.

This week will give the fans a
chance to witness three games, two
which will be played on the local dia-
mond with White Springs, and the
third in Palatka.

The White Springs club have a
strong lot of players, having been in
several games this season, and are in
excellent shape to go up against the
real article in the Oak Hills.

NEWS OF CITY AND COUNTY CONDENSED

The Gainesville Furniture Co. have
a new advertisement in today's Sun,
to which your attention is invited.
You will receive courteous and prompt
attention when you visit their im-
mense establishment.

It is claimed that Palatka is say-
ing they were only teasing the boys
when here and that they will show
us a thing or two on next Thursday.
Manager Davis says we have a cinch.
What do you think about it?

The Gainesville Coca-Cola Bottling
Co. have a new advertisement in to-
day's paper. This is the most popu-
lar cool drink now on the market, and
the Gainesville branch of the works
is prepared to fill all orders promptly.

W. S. Dorsey & Co., who are noted
for the excellent teas they handle,
have an attractive ad. in this issue.
Their White Rose brand has an en-
viable reputation among those who
are "hard to please" in the way of
tea.

Jas. F. Smith, the popular photog-
rapher of the South Side, left for
Jacksonville yesterday. He desires
that his customers remember the fact
that he will be absent in the me-
tropolis until about Thursday, the
29th inst.

The G. W. Hyde & Company have
an ad. in this issue that is well worthy
of your careful perusal. At this
special sale for Monday they have
made some remarkable values for the
purchasing public and if you like the
idea of saving money it will pay
you to take a look at the great re-
ductions being offered.

G. W. Parker of LaCrosse was a
visitor to the city Friday. He
reports that the Farmers' Union and
their families gave a big basket pic-
nic at Providence on last Saturday,
which was largely attended from all
sections of the county. A large
crowd was present, plenty to satisfy
the inner man and a fair day made
it an enjoyable occasion.

Captured in Lake City.

Deputy Sheriff Walker returned Fri-
day from Lake City, having in
charge Starling Means, a negro who
killed another of his race at Dutton
about six months ago. A true bill was
found by the last grand jury and
Sheriff Fennell learned that he was
serving a sentence in Columbia coun-
ty, and asked the authorities to
hold Means.

DELICIOUS BANANA CREAM

This recipe is highly recommended by one
of our correspondents. It is for dessert to
serve:
Peel five large bananas, rub smooth with five
tablespoons of sugar. Add one teaspoon sweet
cream beaten to a stiff froth, then add one tin
package of Lemon JELL-O dissolved in 1 1/2
cups boiling water. Pour into mold and
when cool garnish with sliced cherries.
Serve with whipped cream, or any good pud-
ding sauce. JELL-O is sold by all Grocers at
10c per package.

The Twice-a-Week Sun is an eight page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, state and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

As suggested by Col. W. J. Bryan, Democratic candidate for President, The Sun will receive contributions to the Democratic campaign and, and forward same to the National committee. No subscription of less than one dollar will be received, and the names of all contributors will be published in The Sun, unless otherwise requested. Receipts for all money forwarded to the National committee will also be published. Send in your subscription and help the cause. The committee "needs the money."

Are "circumstances" managing your store—your affairs; or, are you?

The romancing on the political outcome should be confined to the doubtful States.

This is the silly season in politics, and the wise man will only believe what appears reasonable and appeals to his common sense.

The failure of the Roosevelt administration to bust the fertilizer trust will hardly help the Republicans to break the solid South.

One of the candidates for the Republican nomination for Vice President is ill from eating lobster. All the Republican candidates will be sick from eating crow next November.

It is reported that Candidate Taft will in his speech of acceptance favor more tariff revision than the Republican platform calls for. But after all it is Congress that makes tariff laws.

When were you—when are you apt to be nearer "ready" to buy a home, or a little real estate, than now? Insert a want ad. in The Sun and you will receive a number of real bargains to select a home from.

The Farmers' Union is steadily increasing in membership and influence in Alachua county. There is no reason why the farmers should not organize for the purpose of advocating their interests, and The Sun wishes them success in their undertaking.

The "plaza politicians," whose thoughts center on campaign fund collecting, are laughing at the Republican treasurer's lack of knowledge of the Federal law against corporations "organized under any law of Congress" being allowed to contribute.

The Jasper News has ceased to be the official organ of the Farmers' Union of Florida, and again becomes a political and local newspaper. J. M. Caldwell, one of the ablest editors in the State, resumes his old position as editor, while W. C. Caldwell will look after the business end.

The editor of The Sun can say one word for the English sparrow—he is an exterminator of house flies. We have watched these little birds catch flies on the verandas of residences, and they keep the postoffice here absolutely free of the pests. Nevertheless, we would like to see the English sparrows exterminated as well as the flies; but it will never be until the millennium.

REPUBLICAN EXTRAVAGANCE.

The United States Treasury is paying out nearly one million a day more than it is receiving, that is, the deficit for the first seventeen days of July was \$16,157,618. The last session of Congress appropriated the enormous sum of \$1,008,397,543.56 for the fiscal year beginning July 1, 1909, and the session of Congress beginning next December may be expected to appropriate as much for the fiscal year beginning July 1, 1909. That would give our present Republican Congress the unique record of being a two-billion-dollar Congress. Every dollar the Government expends is paid in some way by the people, and voters should remember that this year they will pay \$12 in taxes for each member of their families—a total tax of about \$60 for each average family of five persons.

During the last four years of Republican extravagance there has been appropriated \$3,428,000,000, or \$33,900,000 more than the vast expenditures during four years of civil war, so that during that period each head of a family has paid in National taxes over \$200; and what has he got for it?

Under Republican policies the tax paid by the poor man is as great as the tax paid by the rich man. In fact, in some cases the tax paid by the poor man is greater. For instance, when Mr. Rockefeller, or any other rich man, buys flannel for underwear valued above 70 cents per pound he pays a tariff tax of \$6.39 per cent, out when a poor man buys a cheaper grade of flannel for his underwear, valued at not more than 40 cents per pound, he pays a tariff tax of 143.67 per cent. These figures are the actual duties paid on "flannel for underwear" as officially reported by the Government for the year 1907. As the present Republican Congress refused to consider any revision of this unequal tax, or the many other like cases which the present tariff law imposes, the high rate of tariff taxes on flannels and everything else that is included in the tariff law still continues.

Yet many business men, farmers, and those who have to rely upon wages, still vote the Republican ticket, which is virtually to endorse the Republican policy of taxing those with small incomes more than those with large incomes.

Surely it is time for retrenchment or reform, and experience shows that neither can be expected from Republican politicians.

Mr. Broward couldn't go to Washington, but he went to Denver, where he did valiant service for the cause of real democracy.—Ex. And that's more than some would have done who wanted to go there.—Pensacola Journal. Tell us all about it. What did the Governor do or say to cause the mantle of National greatness to fall upon him?—Ocala Banner. Yes, do. The people of Alachua county, especially, are anxious to learn something about the great work Governor Broward accomplished at Denver.

Hon. Joseph H. Humphries, editor of The Bradenton Journal, was a welcome visitor to The Sun office Saturday. Senator Humphries, who has been nominated to succeed himself from the district composed of DeSoto and Manatee counties, will be a candidate for president of the Senate at the session of 1909. He is not only one of the ablest and best men in public life in Florida, but also an experienced parliamentarian, and would make an ideal presiding officer.

The mechanical features of the recent Republican National Convention and how the President at the Capitol listened to the lengthy burst of applause for him taking place in Chicago, 790 miles distant, are explained in the August number of Popular Mechanics.

LOYALTY TO YOUR TOWN.

When one finds he is out of sympathy with his own town and can only say a good word for it coupled with an apology, says The Orlando Sentinel, he ought to get out. Many people fall into a sort of unconscious habit of growling. But it's a miserable habit. Such people make of themselves a dead weight, while of course they imagine themselves particularly independent. The individual has about all he can do to get along under his own loads, and he wants help and encouragement from those going his way, and who are identified with him in the town. So with the interest he has to care for—and it needs all the pluck, all the energy, all the co-operation and helpfulness its citizens can provide and bring to bear—every man is a part of his town. The town embraces the fortunes, and, in some measure at least, takes on the character of the man. So loyalty to one's town is no more than loyalty to one's self; and this loyalty is in the line of all well-shaped human nature. Therefore, it is right to say that the man who does not stand up for his town is in some way dwarfed. There is something wrong about him. His fellows will pass this judgment upon him, and the chances are that while he may add to the discomfort of others he will not escape making himself unhappy.

Residents of the keys are making various experiments with new plants and fruit trees and in a few years will have proved whether or not the cultivation of several plants of commercial value can be made to pay. One of the experiments is that of raising sisal hemp and as this plant grows wild on many keys there is small doubt that it can be profitably raised when it is grown as a real crop. Other plants that are being tried on the keys are the castor bean, vanilla tree, camphor tree, and a new variety of mango which is in some respects like the famous mulgoba mango that is being raised with such good success in this county. The land on the keys is especially adapted to the cultivation of tropical fruits and with the increase in the population of the keys the growing of fruit will become one of the greatest sources of revenue to the people living there.—Miami News-Record.

The last issue of The Lake Butler Star contains the salutatory of the new editor, J. E. Hays, Jr. Joe is a young man full of ambition, and The Sun trusts that his fondest hopes may be realized in his new field.

A BIT OF HISTORY.

James Doig Gives Some Interesting Information About Gainesville.

Editor Sun: In reply to Capt. W. H. Sanders' statement that on his first visit to Gainesville in 1859 there was but one old gin house, I will say that I owned that plant and it was used as a small foundry and machine shop, being used as such until the Florida railroad, now the S. A. L., made Gainesville headquarters on account of having to evacuate Fernandina during the war. The company kept its headquarters here until 1868, when they were moved back to Fernandina. I enlisted at the beginning of the war, was in one of the first battles in the State, and served until Johnson's surrender at Bentonville, N. C. I settled in Gainesville in 1856, and found Col. Ingram, Major Bailey and Drs. G. P. and R. Y. H. Thomas and families already residents of the place, and the court house was then being built.

JAMES DOIG,
Gainesville, July 25, 1908.

SMILES.

Editor Sun: I send you some smiles which have come to me of late. If they are any good, use them.

The hero of Manila Bay might have remained forever invincible if the souvenir cranks had not put his picture on all of the spoons. As it is, he gets licked every time the ice cream is served. Even this is not an unmitigated calamity, because by the same process he has outdone Hobson in the kissing act.

Traveler—"Say, farmer, can I have one of those watermelons?"

Farmer—"Yes, I am only keeping them for the hogs."

A Cracker at an ice cream social devoured seven saucers full of the delicacy and declared he would have to desist or else build a fire on his stomach.

Stars vs. Comets.

The juveniles of the city are the thing when it comes to the baseball fever, and there are as many different named clubs in the city as there are streets. Saturday two of the nines came together on the old Seminary grounds, when the Comets defeated the Stars by the score of 12 to 12. The battery for the Comets was Bonderant and Medlin; for the Stars, Lang and Driver.

CIVIL SERVICE EXAMINATION

To Be Held on August 19th for
Clerks and Carriers.

Announcement has been made by the United States Civil Service Commission for an examination to be held in this city August 19th for clerks and carriers.

It is hoped that a large number of applicants will avail themselves of the opportunity of taking this examination, which will be held before some one here.

The Civil Service Commission is now offering inducements for persons to enter the postoffice department, and the examination is open to either sex, the age limit being from 18 to 45 years.

Application blanks can be secured by applying to Postmaster Lynch, and must be sent to the district secretary at Atlanta before August 1st.

TERRIBLE MARINE DISASTER.

Ten to Twenty Passengers Believed to
Have Been Lost.

Christiania, July 25.—The steamer Bakkelaget, engaged in the local passenger trade, was in collision Thursday with the steamer Gotsborg. She was cut through amidships and sank in a few minutes.

From ten to twenty of the Bakkelaget's passengers are believed to have been drowned.

Twenty-three of them were rescued by the Gotsborg.

Savannah Market Quiet and Firm
During Past Week.

Savannah, Ga., July 25.—The market during the past week was quiet and firm with light offerings and a moderate demand. Sales for the week, 115 bales, were mostly of extra choice. A decline in the quotations for several grades was taken merely as the adjusting of relative prices after previous irregularity.

Crop accounts were much the same from Georgia, except that there are some complaints of shedding and other damage from the excessive heat after the heavy rains. Accounts from Florida are mostly unfavorable, the crop being backward and not in satisfactory condition, remaining backward and unpromising.

The following prices are based on factors' quotations and are revised weekly on Fridays:

City Surveyor Taylor Busy Surveying

ATLANTIC COAST LINE ACTS

Work Soon to Commence on This
Thoroughfare—About All Prelimi-
naries Completed—Vitrified Brick
from Union to Mechanic Street.

City Surveyor A. W. Taylor was
yesterday busily engaged in obtaining
the level of West Main street for the
purpose of making the correct grade
for the laying of the vitrified brick.

The Atlantic Coast Line was the
first to take action in the matter, as
it was only a few days after the reso-
lution had been passed up to them
that they sent a force here for the
purpose of ascertaining the number
of brick it would require for their
part of the work and the probable
cost thereof.

From all indications it seems now
that it will be only a short while
before work will actually begin on
the laying of the brick, which will
give us our first paving of this kind
for street work.

The crossings put down here some
eight years ago by Chairman Benson
have stood the test of all kinds of
vehicles and the roughest of use, and
they have not shown up any the
worse for that. If the new work is
put down in the same manner it will
be a thing of joy to all who will be
compelled to use this street.

It is understood that the expense
of this work will be divided equally
between the city, A. C. L. and prop-
erty holders against whose property
the improvements abuts.

HIGH SPRINGS NEWS.

Two Very Sad Deaths During the Past Week.

High Springs, July 25.—Born, to
Mr. and Mrs. H. J. Peterman on July
20th, a son.

Mrs. G. W. Stanley and children
of Plant City are visiting the family
of Rev. J. C. Rogers.

Miss Annie Lou Hodges has gone
to Seabreeze for a visit of several
weeks.

Little Clara, the nine-months baby
of Mr. and Mrs. Wade Whilden, died
on Saturday and was buried Sunday.
Rev. G. E. Thompson conducting the
funeral services. The little one's
death was comparatively sudden, hav-
ing been sick but a very short time,
and was a great shock to the devoted
parents and other relatives. They
have the sympathy of everyone in
their sad bereavement.

Mrs. D. M. Davidson died on Fri-
day night, after an illness of two
weeks. She is survived by her hus-
band and three children, Mr. W. N.
Davidson, Mrs. Edmondson, and Mark
Davidson, all of High Springs. The
remains will be interred in Ware-
borough, Ga. Mrs. Davidson was a
consistent Christian woman, and her
many friends are grieved to learn of
her death.

In spite of the threatening weather
a large crowd attended the baptismal
services held at Panu Springs on Sun-
day afternoon. The rite was bestowed
on twelve candidates by Rev. J. C.
Rogers. Several others who were to
have been baptized were prevented
from being present by sickness.

Mrs. E. J. Baird, living at 505 S.
Roper avenue, Gainesville, Fla., says:
"It would be hard to describe all the
misery I endured from kidney and
bladder trouble during the past few
years. I really believe that I had
every symptom that arises from a se-
vere case of kidney complaint. I
tried many remedies, but could find
nothing to give me relief. Finally
acting upon the advice of a friend,
I procured a box of Doan's Kidney
Pills at J. S. Bodiford & Co's. and be-
gan their use. This remedy proved
to be just what I needed. The first
few doses gave me relief, the kidney
action is now normal and I feel a
great deal stronger. Doan's Kidney
Pills proved so beneficial in my case
that I am pleased to recommend them
to other sufferers."

Miss Callie McCall, for many years
a trusted and efficient employe of the
Government at Washington, is visiting
her mother, Mrs. McCall.

Mrs. C. L. Futch of Lake City, who
has been visiting the family of Rev.
J. C. Rogers, has returned home.

T. D. Futch has gone to Thomas-
ville to remain until the opening of
the college at Auburn, Ala., when he
will resume his studies at that insti-
tution.

On Wednesday night Esther Re-
bekah Lodge of High Springs held
the regular installation of officers, fol-
lowed by an elegant banquet. The
following were the officers installed:
Noble Grand, Mrs. Ellen Rimes; Vice-
Noble Grand, Mrs. A. E. Adams;
Treasurer, Mrs. G. C. Nisi; Secretary,
Mrs. J. L. Grimes; Warden, Mrs. Cora
Pedrick; Conductor, Miss Onie Rimes;

OUR WEEKLY NEW YORK LETTER.

Petticoats Banished From Fashion-
able Wardrobes—Convenience of
the Net Blouse—Dainty Gowns of
Old-Fashioned Dotted Swisses and
Figured Muslins—The Linen
Skirt Still Popular.

BY MONS. GENE DE PONTAC.

That the petticoat is going mo-
mentarily more and more darkly in-
to eclipse is evident wherever fash-
ionable women congregate, and not
only is the long trailing gown af-
fected, but in the latest Parisian
models even the short trotting gown
falls straight and a bit limply about
the bottom. But the result is far
from desirable—it is chic, not grace,
that distinguishes the short skirt and
for this a certain amount of crisp-
ness is absolutely necessary.

Apropos of the sensational corset
offered by some couturieres, reach-
ing nearly to the knees and strapped
down by numerous complicated sets
of garters, some extremely well turned
out Parisiennes wear no corset at
all with the Empire or Directoire
gown, replacing it with a woven
garment of strongest silk or linen,
with a few slim bones on either side
of the front. This brings bust, hips
and waist into a straight line. This

pursuit of the straight figure has be-
come so extreme that the Paris cor-
setiers have entirely banished waist-
line, hips and bust—the aim is a fig-
ure absolutely without a curve—and
not so many years ago the waist-line
was the sometimes painfully attained
ideal! Not that comfort is the
object of the new fashion—far from
it. Nothing more destructive of
ease has ever been devised than the
long straight corset, the draping
wrapped about the body and clinging
about the feet.

The tucked net waist is taking the
place of the lingerie blouse in Paris
and has much to recommend it be-
side the mere fact that it is the fash-
ion of the moment. It is cool, laun-
dered beautifully, does not crush and
takes a dye most successfully. The
newest of these waists are simply
tucked and are usually finished with
a jabot and a narrow black band,
either at top or bottom of the stock,
which has a wide frill at the top.
These waists are fastened down the
front—another point of convenience—
the joining hidden by the jabot.
If intended for more dressy wear, it
is a pretty idea to do the tuck-
ing in fine gold or silver thread, or
in heavy floss to match the rest of
the costume.

Fine dotted Swiss is much used for
gowns, trimmed with bands of in-
sertion and embroidery. A some-
what new form of trimming for sum-
mer frocks is the surprise effect given
by long lines of batiste embroidery
running from shoulders to hem and
crossed over the front of the waist,
running under the girdle and
down the skirt. Absolutely simple
little gowns of old-fashioned muslin
are being worn for morning—white
ground with rings of blue, pink, or
violet, single pink stripes, double
stripes of blue and black, or little
springs of blue, pink or green. They
are very inexpensive, easily laundered
and exceedingly dainty.

Pique is showing signs of a strong
revival, especially in embroidered
and braided pattern robes. In Paris

pique is being much used for tailor-
ed gowns adorned with the most
elaborate of embroidery and lace
handwork.

There is no less demand than
heretofore for the white linen skirt
to be worn with white shirtwaists,
and its only real rival is the skirt of
ecru linen. Khaki is modish and
wears well for outing purposes, but is not cool.
Almost as convenient as the skirt that buttons
down the front is the one modeled after the Peter
Thomson suits of Philadelphia fame, and laced
down the back by linen tape carried through
round button holes on each side of the placket.
Chrysoline is a pretty silky material that is
much used for smart little afternoon and even-
ing frocks for the summer—and especially for
the latter is it desirable, for with all the soft-
ness of silk museline it has the invaluable
advantage that dampness has no effect on it.

GEORGIA LEGISLATURE.

Investigation Shows Unhappy State of Affairs.
July 25.—The investigation of the convicts in treatment of the state by the legislative committee has developed some very startling sensations.

Truly Deplorable.
Witnesses have testified on cruelty and unfeeling treatment which is truly deplorable.

Most revolting tragedy rehearsing the day was the beating of a year-old white boy with a leather strap from the effects of punishment he died, this story told by R. A. Keith.

Offense for which this boy was said to have been of a character. An ex-convict sentenced for life, and afterwards told, under oath, a narrative that has probably never surpassed in a court room in country.

Man was J. A. Cochran, now tractor, living in the city of . He told of a negro being to death at the state farm at except that he was sick and not work.

Man Whipped to Death.
The Chattahoochee Brick company, on the Chattahoochee river at Atlanta, he said men were with unmerciful severity; giving beyond their physical power, endurance, and whipped when ask under the strain of the.

Here also a man was whipped to death.

Evidence is Corroborated.
Evidence as to the prison farm the Chattahoochee Brick company corroborated by other witnesses.

They told of the heat, the cruel viciousness of the guards, the labor and the severe flog.

They testified that free labor not have been secured for the work under the same circumstances at any price.

Nowell measure, providing for corporation of all mutual aid, life insurance companies was reported by the corporation of the house at a brief session Thursday afternoon.

meeting of the general agricultural committee that body reconsider action in reporting to the house the Burkhalter bill in order to redress in cases of fertility coming up to requirements.

It was amended by the committee favorably reported.

resolution that the senate adjourn for several days so that the committee investigating the convict system could have the chance to their investigations, without the interruptions of the regular sessions of the senate, was voted.

Cholera and Diarrhoea Remedy Would Have Saved Him \$100.

1902 I had a very severe attack of cholera," says R. N. Farrar of Grand, La. For several weeks I was unable to do anything. On March 27, I had a similar attack, and Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave prompt relief. I consider it one of the best medicines of its kind in the world, and had I used it in 1902 it would have saved me a dollar doctor's bill." Sold by druggists.

Will Support Denver Ticket.

July 25.—The Young Democratic League of Fulton county is squarely behind Bryan and is planning to roll up in number the biggest majority ever in this county for a presidential date. Not only will the league active work in Fulton county, but its president, Adlai Chambers, will communicate with Chairman Hewitt, of the state democratic executive committee, offering the services of the league in any manner which the committee may direct. Instructions to the effect were adopted at the meeting of the executive committee in the office of President Chambers Thursday. Resolutions were passed declaring the league enthusiastically behind the Denver ticket.

BRIEF DISPATCHES.

Josepa Hirsch, a well known Jewish citizen of Atlanta, is a candidate for mayor of that city.

Two fires, almost at the same time, have occurred in Savannah, entailing a loss of \$50,000.

It is reported that the towns of Monastir, Uakub and Salonika, are in the hands of the young Turks. Order has been maintained everywhere.

Douglas Boxall, a member of the faculty of the Cincinnati Conservatory of Music, and widely known as a piano soloist, died of appendicitis.

The city council of Spandan, in Brandenburg, Prussia, has inaugurated a movement to raise \$1,625,000 as a national gift for Count Zeppelin.

A special dispatch from Teheran says that Salmas Khoy Oskub, one of the nationalist leaders at Tabriz, threatens as a last resort to attack Europeans, thus forcing intervention.

An imperial firman, restoring to Macedonia the constitution of 1876, was read in Salonika publicly in the presence of the civil and military authorities, and before an immense and orderly crowd. Great enthusiasm prevailed.

Boy's Life Saved.

My little boy, four years old, had a severe attack of dysentery. We had two physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea remedy which cured him and believe that saved his life.—William H. Stirling, Carbon Hill, Ala. There is no doubt but this remedy saves the lives of many children each year. Give it with castor oil according to the plain printed directions and a cure is certain. For sale by all druggists.

War Veteran Drops Dead.

Mobile, Ala., July 25.—Captain W. M. Morris, keeper of the National cemetery here, and a native of Hamilton, O., dropped dead early Friday morning of heart failure, while reading a newspaper. Captain Morris was sixty-eight years of age and during the civil war was a member of the third United States cavalry, afterwards he saw considerable fight with Indians in the west. He was formerly keeper of the National cemeteries at Fort Gibson, Indian Territory, and San Antonio. He is survived by a wife and one daughter.

Sheriff Asks for Troops.

Natalbany, La., July 25.—Following the dynamiting of an Italian's home here and other disorders, Sheriff Seal, of the parish of Tangipahoa, shortly before noon Friday sent a message to Governor Sanders asking for troops. No one was injured in the explosion. Italians by the hundreds have been leaving this section, seeking refuge generally in New Orleans, where the Italian consul is giving the matter his attention.

Was in Poor Health for Years.

Ira W. Kelley of Mansfield, Pa., writes: "I was in poor health for two years, suffering from kidney and bladder trouble, and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others." Refused a bettutes. J. W. McCollum & Co.

Nomination for Congress.

Des Moines, Iowa, July 25.—By a vote of 73½ to 54, the delegates in the seventh district republican convention nominated Judge S. F. Prouty for representative in congress over Congressman J. A. T. Hull, no notice that a nomination had been made at the primary of June 2 having been received by the convention. Captain Hull insisted that the convention acted without authority.

Summer Hotel Burned.

Winston-Salem, N. C., July 25.—The main hotel building at Wade Mecum Springs, a summer resort about 40 miles from here, was destroyed by fire early Friday morning. Several of the guests had narrow escapes from death, and all occupants of the buildings lost practically all their personal belongings. The resort was conducted by the Stokes company. The loss is heavy.

Soldiers Fire on Rioters.

Bombay, July 25.—The 20,000 mill hands who went on a strike started to riot and a detachment of British infantry was called out to put down the riot. It was found necessary to fire, and as a result one native was killed and six were wounded. Several members of the European and native police forces sustained injuries. The rioters were quelled for the moment and dispersed.

Used Stick to Pull Trigger.

Waycross, Ga., July 25.—Joe M. Cribb, fifty years old, committed suicide at his home near Waycross on Thursday night. Despondency over debts and ill health is assigned as the cause of the deed. Every preparation for the act was made with minuteness, the man even sending his fifteen-year-old son across to neighbors to get some one to sit up the rest of the night with his body. A small shotgun was used, the barrel being placed against his heart and the trigger pulled by a walking stick.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery. Recent scientific research has put its finger on the "cause" of Watt's discovery, and has unearthed a tiny germ which sets the life from the roots of human history.

Newborn's Harpiclea destroys this germ and consequently restores life to its natural state. Send the stamps for sample to The Harpiclea Co., Detroit, Mich.

S.S.S. CURES OLD SORES

No old sore can heal until the cause which produces it has been removed. External applications of salves, washes, lotions, etc., may reduce the inflammation and assist in keeping the place clean, but cannot cure the trouble because they do not reach its source. Old sores exist because the blood is infected with impurities and poisons which are constantly being discharged into the place. The nerves, tissues and fibres of the flesh are kept in a state of irritation and disease by being daily fed with the germ-laden matter through the circulation, making it impossible for the sore to heal. S. S. S. cures chronic sores by its purifying action on the blood. It goes down into the circulation, and removes the poison-producing germs, impurities and morbid matters which are responsible for the failure of the place to heal. S. S. S. makes the blood pure, fresh and healthy; then as new, rich blood is carried to the spot the healing process begins, all discharge ceases, the inflammation leaves, new tissue begins to form, the place fills in with firm, healthy flesh, and soon the sore is permanently cured. S. S. S. is purely vegetable, the safest and best blood purifier for young or old. Book on Sores and Ulcers and any medical advice free to all who write.

Hard Lines For Bachelors.

"Korea's the wrong place for bachelors," said a traveler. "Bachelors in Korea are considered as children and have only children's privileges. You, a Korean bachelor, get thirsty. You enter a rest house and call for palm wine. The pretty little amber colored waitress says: "Married?" "No," says you. "Heraus then," says she, and out you go, unslaked. "You want to vote, but they won't let you if you are not married. "You apply for a job somewhere. "How many children have you?" is the first question you're asked. And as soon as you say you're unmarried they laugh in your face to think that you should presume to apply for work anywhere."—New York Press.

The Ita Palm.

In the moonlit garden overlooking the sea no sound was to be heard save the petulant plaint of the mosquitoes, angry at being disturbed at their food. "Come," said the host, "let us go and sit under the Ita palm. They won't bother us there."

In comfort under the Ita, he went on: "This tree is from the Orinoco delta, the home of the Warau tribe. The Orinoco delta is infested with mosquitoes to an incredible degree. The Waraus, to escape them, live in a palm whose odor the mosquito can't put up with."

"This is the palm—the Ita—which makes the naked Warau's mosquito proof bed. A handy thing it is among these salt marshes to have in a garden too."—Cincinnati Enquirer.

meeting his many friends in the Saturday. He has been suffering rheumatism for some time past, his friends will be glad to know he has sufficiently recovered to get him to get about.

A WARNING

I have learned that certain persons are representing themselves as agents, and taking orders for pictures, claiming I will finish in some cases the pictures given have been lost—pictures of dear which cannot be replaced. I, agents, never did, and never I deal directly with my patrons all work. I cannot afford to pay agent out of the prices I charge the high-grade work I do. Bring enlarging to me and you are insured against loss of the work but will have a guarantee of a likeness and an artistic finish.

At one of the leading stores in Gainesville and ask the proprietor if it is dull with him. Nine times out of ten he will say he is not doing very much, in fact not near what he did one year ago, but this season he has had a good run on ladies' ready-to-wear goods, or white wash goods, or some certain style of shoe—in other words, by reason of the large variety of articles carried in stock, he managed to keep doing business at a profit. Take the Banking business: Most Banks will say their business isn't so good since the panic, or something of that kind, but still they are doing "mighty fine." That is not like giving the figures, it is more or less evasive. YOU have a right to know how "things are" where your money is kept, and you should know—insist on the figures—get at the inside of it. We have published five Statements on calls made by the Comptroller of the Currency since we opened for business. Haven't seen one? All right, come around and we will give you a copy of each one. We keep a complete stock, like the merchant referred to above, and you will always find we can "deliver the goods" if it is in the Banking line.
